The plate meeting ends and the game starts. In the 2nd inning the visiting coach reports his concern that some part of the field does not meet NFHS requirements. - The umpire will inform the protesting coach the protest will not be considered, and the game will resume anyway.
 - The umpire should have suspended the game before the protest was even made.

- A declared foul ball cannot be changed under any circumstances. The at bat continues with a 1-2 count, and the runner is returned to 3B, and it remains one out.
 - The caught ball is declared an out, but the ball status is dead due to the umpire's declaration the ball was foul.
 - The caught fly ball is declared a catch for the 2nd out. The ball remains live, and the run scores.

Rule Reference: 2.16.1 and Case Play 2.16.1 Situation A(a)

11. B4 has a 1-1 count, one out, and R3 is at 3B. B4 hits a fly ball down the right field line. The umpire declares the ball foul while it is still in flight. The right fielder initially touches the ball completely in fair territory but is unable to catch the ball. B4 rounds first and easily makes it to 2B without a play, and R3 scored.
- The ball should have been ruled fair, so it remained live even though the umpire initially declared it foul.
 - The foul call cannot be changed in this situation. Since the ball hit the ground after it was declared foul, it must remain foul. B4 resumes his at bat with a 1-2 count and one out, and R3 is returned to 3B and the run nullified.
 - The ball status is dead as soon as the ball touched the ground. B4 is awarded 1B, and R3 is awarded home.

- The foul call is changed to fair, so the ball remains live. R1 remains at 2B and B5 at 1B with no outs.
 - The foul call cannot be undone. R1 is returned to 1B and B5 is declared out on strikes.

53. Team A is on offense, with R1 at 1B and B7 batting. B7 hits a ground ball to the shortstop, who overthrows the first baseman. R1, running on the ground ball, rounds 2B, but misses touching the base as he rounds towards 3B. The thrown ball goes into the dugout. The umpire calls time and awards R1 third base and the batter runner second base. R1 does not immediately return to 2B and touch it. Instead, he goes to 3B and stands on the bag. While the runner is standing on 3B, his coach tells him to return to 2B and touch it. The runner returns to 2B, touches it, and then jogs back to 3B, per the base award. The defense then properly makes a dead ball appeal that R1 missed 2B.

- a. The appeal is denied, and the runner remains at 3B. A runner is always allowed to correct baserunning errors during a dead ball without risk of being put out if the error involved awarded bases.
- b. R1 is out on the appeal of the missed base. The runner advanced to a succeeding base after the ball became dead, so he cannot then return to 2B to correct the baserunning error.
